

COMPANY PROFILE

Company Registration: 2018/204052/07

DZ Amanzi (Pty) Ltd was established to be a forerunner in service excellence providing quality products to the Water and Sewer Civil Engineering Industry.

The directors are actively involved in the day-to-day running of the business and have over 25 years of experience. They have extensive technical knowledge, experience and understanding of pipelines and ancillary components.

We supply steel, ductile iron, PVC and HDPE products of the highest quality and conforming to the relevant standards.

Not being limited to one type of product, means we can offer workable alternatives and various other options should it be required.

We feel that our clients should be treated as a partner in our business, where we have their best interests at heart.

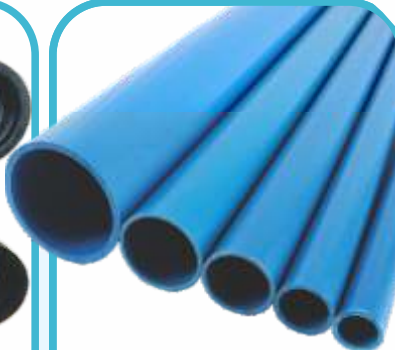

We pride ourselves on ensuring our clients' success on their projects.
